HOW TO CONNECT MY VP 8300?

1. Connect via USB your VP8300 to your Laptop or PC.
2. Confirm terminal is in KB emulation mode by ensuring that the first light to the left turns “steady green” when you plug/connect your reader.
3. If there are no lights on device, make sure the cable is seated all the way into the port on your laptop or PC, as well as to the 8300 device.

**Note: the VP8300 may not be compatible with older computers or laptops*

HOW TO RUN TRANSACTIONS

1. Click “check out/pay” in your software and/or Virtual Terminal
2. Insert, tab or swipe card in the VP8300 device
 - When inserting first light to the only left “turns green”
3. Remove card after beeping and payment will be completed.
4. Use your software and/or Virtual Terminal to email receipts to your customer.
